

PRECIOUS METALS IN A SELF-DIRECTED IRA

As a precious metals vendor, you can grow your client base by educating clients on the benefits of investing with self-directed IRAs.

- Investors can hold precious metals within their IRAs to build retirement income, providing you a new pool of clients to market to.
- Precious metals provide long-term safety and security for investors.
- Midland IRA can help educate you and your clients about self-directed IRAs.
- We will make the process simple and easy for all parties.
- We have a one-time IRA account set-up fee, a one-time fee to purchase the precious metals, and annual administration fees.
- Independent storage of these assets is determined by the dealer and the client.

WHAT PRECIOUS METALS ARE PERMISSIBLE IN AN IRA?

Gold • Silver • Palladium • Platinum

Note: There are certain requirements precious metals must meet in order to maintain IRS standards for these investments. Visit www.midlandira.com/precious-metals/ for detailed information.

Midland IRA is your resource for precious metal investments.
