

WHAT IS A SELF-DIRECTED IRA?

Self-directed IRAs allow owners of these accounts freedom and control of choosing their own investments instead of allowing another party to make these decisions for them. The massive amount of alternative investments available for self-directed plans provides the opportunity for diversity and potential gains that may perform better than traditional stocks, bonds, and mutual funds.

Alternative investments include:

- Real estate
- Notes and mortgages
- Single-member LLC (checkbook control IRA)
- Private placements & private stock
- Crowdfunding opportunities
- Precious metals
- Foreign currency exchange (forex)
- Futures trading
- Hedge funds
- Oil and gas options
- ...and more

TYPES OF PLANS AVAILABLE:

- Traditional IRA
- Roth IRA
- SEP IRA
- SIMPLE IRA
- Individual 401(k)
- Health Savings Account
- Education Savings Account

Why choose Midland IRA?

- We process all transactions within 24 hours of a funded account, putting your IRA funds to work ASAP!
- We offer cutting-edge technology that allows our clients access to accounts 24 hours a day. Our robust online portal (midland360.com) enables clients to make contributions, request distributions, view statements, tax documents, and pay bills on behalf of the IRA. We also provide a secure document upload feature for time sensitive delivery of important papers.
- We charge a flat annual administration fee, unlike some competitors who charge solely based on the total account value.
- Our team has superior knowledge and experience with self-directed IRAs, with over 30 years in the business.
